SUBJECT: Availability of State and Regional Toxics
Control Strategies

FROM: Bill Diamond
Jim Gallup

TO: Permits Division

A file of State and Regional toxics control strategies has been set up in Room 211. The purpose is to provide access to these strategies for staff reference and referral.

An index of the documents currently on file is attached. This list is not comprehensive and additions will be made as the documents become available. A current version of the index will be kept in the file drawer. State Toxics Control Strategy review documents will be added as they are completed.

We hope you find the availability of this information useful.
